## Observations... From Around Town

(BY JAY WHOZIT)

Summer has really come in with a bang with the thermometer hitting in the 90's several times during the week, and no rain to cool things off or keep down the dust... the first accidental drowning of this season occurred on last Friday afternoon when little 9-year old Emmett Summers accidentally fell from a boat in which he and two other companions were playing... our sympathy goes out to the child's family and let's hope there will be no more... two more candidates who have thrown their hat into the city political scramble have their announcements in this week's issue... come in, boys the waters fine and the more the merrier, so they say... next week will be one of the biggest and busiest weeks in the history of Bay St. Louis, beginning with the consecration of Bishop-elect Leo F. Fahey on Wednesday morning at Our Lady of the Gulf Church, and the public reception in the evening at St. Joseph Academy, on Friday evening Bay High School graduation exercises will be held at Bay High gymnasium on Saturday evening St. Joseph Academy will hold their commencement exercises; and on Sunday morning following Saint Stanislaus will end their 1947-48 school session, at eleven o'clock in the college auditorium... yessir, folks, there'll be a hot time in the old town next week... the board of supervisors, together with Congressman Colmer and others, are still working hard to get Federal or State aid with which to rebuild our beach road and seawall, and we certainly hope something definite happens in the very near future as time is slipping away fast... if the public had any assurance whatsoever, that even a small portion of the many campaign PROMISES now being made to the electorate would be fulfilled we would really have something to look forward to, but you know what they say about promises—"like pie crust, easily broken"... the committee in charge of the rebuilding of the Waveland Municipal Pier was to receive bids this week... if they are agreeable, it is hoped that construction will be started immediately, in order to have the pier ready for at least part of this season... St. Stanislaus and St. Joseph Academy will open their summer camps on Sunday, June 13th, continuing for approximately five weeks.

## STANISLAUS TAKES REGIONAL BASEBALL CROWN

### Journey to Hattiesburg For South Miss. Playoff

Taking advantage of superb 4-hit pitching by serious faced Bobby McClure, the St. Stanislaus Rock-A-Chaws added the regional baseball crown to their other laurels Wednesday afternoon by defeating Gulfport 10-6.

The local lads entered the fifth inning with a 4-2 lead and immediately added 3 more runs to apparently seal the game away with a 7-2 lead. Gulfport returned the honors with a 4 run spurge, but didn't have the punch to tie the score. The Rocks added 2 runs in the sixth and 1 in the seventh to sew the championship tight.

Next week, the exact date not announced as yet, the Rockchaws will participate in the South Mississippi play-off at Hattiesburg, S. C.

## WE MUST SHOW OUR HOSPITALITY

The people of the Parish of Our Lady of the Gulf are the host on occasion of the Consecration of Most Rev. Leo F. Fahey. There will be a great number of visitors, including some two hundred priests, approximately 100 sisters and brothers of the various religious orders, and over two hundred parishioners of the Bishop Elect from Hattiesburg, Miss. We should render every courtesy possible, and realize that the church can accommodate only a certain number of people. Seats will be reserved for the members of his family, for the clergy, the sisters and brothers, and for the members of his parish at Hattiesburg, this will leave only a small portion of the church for the people of Bay St. Louis, may we urge and suggest that we see that our visitors are taken care of first and then let us take what is left, and be happy and satisfied. It shall be our privilege to honor our native son who has been so greatly honored by the Holy See, by his elevation to the Episcopacy, at a public reception on Wednesday evening at 8 o'clock, at St. Joseph Auditorium.

Again on Saturday morning, May 29th, at the Church of Our Lady of the Gulf he will celebrate mass for the graduating classes of St. Stanislaus and St. Joseph Academy, and again on Saturday evening at 7 o'clock he will address the graduates of St. Joseph Academy. It is also hoped that on Sunday, June 6th, he will celebrate a Pontifical High Mass in his native Parish.

Many of our visitors will be with us throughout the day and every effort to be made for their every need, and show our true southern hospitality, being grateful to the many who will be with us on this occasion, assisting in honoring our beloved native son.

## CANDIDATE FOR COMMISSIONER

J. C. ROLAND, JR.

The Sea Coast Echo is authorized to announce the candidacy of J. C. Roland, Jr., for the office of Commissioner of the City of Bay St. Louis, subject to the action of the Democratic Primary Election to be held on the 10th day of July, 1948.

Mr. Roland's statement to the voters follows:

To the Qualified Electors of the City of Bay St. Louis:

I wish to announce my candidacy for the office of City Commissioner, subject to the action of the Democratic primary to be held on July 10, 1948.

At the outset, I want to make it perfectly clear that I am running for election to this office at the insistence of many friends, and on my qualifications hereinafter outlined.

Due to the various positions I have held, I feel that I am fully qualified and have had sufficient experience to fulfill the duties required of the office of City Commissioner.

The following information will briefly outline my qualifications:

I attended Bay High School and St. Stanislaus College, and completed my high school education at St. Stanislaus in 1933. In addition to my high school education, I studied accounting for two years from LaSalle Extension University of Chicago, and completed their course in Business Administration.

I was employed in the Hancock Bank of this city, from 1935 to 1940, at which time I resigned to accept a position with the U. S. Department of Agriculture.

I enlisted in the U. S. Army as a private in November, 1940, and served for a period of five and one-half years. Forty-two months of this time was served in the European Theatre of Operations. I was placed on inactive status in the Officers' Reserve Corps with the Rank of Major in February, 1946. During my Army career, I acted as Purchasing and Contracting officer for a Port to Embarkation and among my other duties, it was my responsibility to approve of all expenditures for supplies procured for the successful operation of the port.

If elected I will conduct my office on a strictly business basis as I am qualified to do and will work and cooperate with any person elected to the Commission Council. Among other proposals, I am in favor of the following:

1. A thorough review of the assessment of property taxes, and a more equitable distribution made of these assessments.

2. It would be my purpose to keep all essential records of the City current, and the public completely informed on all matters.

3. Improvement and maintenance of our City's streets, and the restoration of our beach front at the earliest practicable date.

4. Full cooperation with County, State and Federal authorities for the immediate construction of a larger hospital, which is so vitally needed at this time.

5. Improvement of the City's drainage system, and full cooperation with the County, State and Federal authorities to eliminate hazards which effect the health of our citizens.

6. I would solicit the advice of any civic minded citizen, or group of citizens, for the furtherance of the City's progress.

I submit my qualifications and the above proposals for your earnest consideration of my candidacy for the office of City Commissioner, and if elected, you may rest assured that my full time and every effort will be put forth to achieve these goals.

Respectfully submitted,  
J. C. ROLAND, JR.

—Don't forget the annual meeting of the Red Cross to be held the first Tuesday of June, at the Courthouse.

We must vote without fear, favor or compromise, after due consideration, according to the dictates of our own hearts, for the best men available, to conduct the business affairs of our city.

This year it again becomes the privilege of We The People of Bay Saint Louis to exercise the right of vote. The purpose of this election will be to select three men to work for the people and conduct the business affairs of the city. We will intrust these men with not only our city finances but also with all the obligations of city government to ourselves, to each other and to anyone else with whom they will become associated, or with whom they will deal as representatives of our city.

This privilege carries with it an obligation on our part. This obligation is to our homes, our neighbors and our posterity. To meet this obligation honestly and sincerely is to cast our vote, without fear, favor or compromise for the best men available according to the dictates of our own hearts, after due consideration.

Should we as voters fail to meet our obligations and be negligent in our duties then couldn't it be well said that we are directly responsible for the acts and conduct of the men we elect? Can we expect these men to be honest with us for four years when they know that we were not honest on election day because we cast a vote that was insincere and detrimental to our city government? Is not our present sad plight enough to teach us that political promises are no good? That voting for a friend or relative because he needs a job, regardless of his character or qualifications leads only downward? That we should employ men for our public job as we do for our private jobs, men who will be an asset rather than a liability?

### FACTS AND FIGURES DON'T LIE

Hello, Folks:

Have you ever stood on the sidewalk watching the fire truck pass on its way to a fire? Have you, too, noticed the comments of the people standing there. Because they were so true you could make no reply in defense, but didn't it grate on your nerves to hear such remarks as: 'Wonder if it will reach there before the fire is out?' or 'It'll probably fall to pieces before it gets to the corner,' or 'Do you suppose the hose is long enough to do any good?' It is a shame for our fire department to be hampered by inadequate facilities. It is common knowledge that the engine is carefully tended by our firemen, but after all, it needs more than care. It was purchased some eighteen years ago under the Administration of Honorable Mayor Traub and has seen much active service since that time. Now it would be far better to retire it and secure adequate necessary equipment. It has recently been brought to my attention just what a great number of fire hazards are rampant in our city. For an example, Bay View Court has no fire protection at all under existing circumstances. In case of a fire, the City of Bay St. Louis does not have sufficient fire hose to reach the scene. One fire-plug is in front of Mr. Leo Seal's house on North Beach and the other is by the entrance to the Seminary on North Second St. This is only one of many existing local fire hazards. I am sure we will all agree that this is criminal negligence on the part of someone.

We citizens and voters of Bay St. Louis should awaken to our responsibilities. Remember, the City collects \$191,715.50 in taxes annually. We should demand that more of this revenue be expended wisely in necessary fire protection.

Remember the date: July 10.

Your Independent Candidate,

EARL F. RAMOND.

Watch this column for facts and figures relative to city expenditures. I solicit your vote and influence for a bigger and better Bay St. Louis.

#### BAY HIGH SPEAKER

Mrs. Laurie M. Carter, President of the Mississippi Educational Association, who spoke at Bay High School on Career Day, her subject was the selection of a vocation in general, and of teaching as a profession.

She is shown with Superintendent S. J. Ingram.

On Thursday, April 29, Bay High sponsored a Career Day as a means of disseminating occupational information to all the students in the high school and especially to the members of the SENIOR Class.

A career Day is a specially planned day during which high school students are given an opportunity to hear successful men and women discuss their own vocations and to participate in discussions with them. In short, it is one full school day when time is provided for serious consideration of future careers.

At 9 o'clock in the morning Career Day opened with a general assembly in the auditorium with all the student body and faculty present. The day's program began with a speech by Mrs. Laurie M. Carter, president of the Mississippi Educational Association, who spoke on the selection of a vocation in general, and of teaching as a profession. Her speech was very well received by her audience, and her own enthusiasm for teaching was carried over to her hearers.

Two groups met in separate rooms at 10 o'clock. The girls interested in Homemaking heard Miss Ruth Wallace State Supervisor of Home-Making from the State Department of Education discuss the various professions that girls who major in Home Economics may follow after graduation. The boys heard Mr. James P. Bolling, Assistant Supervisor of Bridges and Buildings for the L & N. Railroad, talk about the possibilities of railroad work as a vocation for boys.

At 12 o'clock Miss Dorothy Gorbett a representative of the Mari-nello Beauty School of New Orleans, talked to the girls interested

# ORTTE THEATRE WED. - THURSDAY "BLACK NARCISSUS"

With DeBorah Kerr

The film "Black Narcissus," coming to the Ortte Theatre, depicts the lives of five Protestant Nuns of the Anglican Church who journey to the Himalaya Mountains and attempt to set up a school and dispensary for the benefit of the natives. But the problems of the world outside their convent, which they had thought to avoid when taking their vows, encroach upon them unrelentingly.

The picture shows Deborah Kerr as Sister Clodagh, who as the Sister Superior has charge of the convent. This is a completely different role from that which she assumes in her first American picture "The Hushers," in which she plays opposite Clark Gable. With her at this unusual convent are Flora Robson as Sister Philippa, who raises tropical flowers instead of vegetables which the convent sorely needs; Judith Furs as Sister Briony who handles the dispensary; Jenny Laird as Sister Honey who treats a desperately sick child in defiance of orders; and Kathleen Byron as Sister Ruth who forsakes the Order. David Farrar is a cynical British Agent Sabu who has the role of the young Indian Prince who seeks an education at the convent. Jean Simmons has the part of the native girl whom he takes away with him.

The picture was written, produced and directed by Michael Powell and Emeric Pressburger and was filmed entirely in Technicolor. It is presented by J. Arthur Rank and is released through Universal International.

# "NIGHT SONG" AT A. & G. THEATER SUNDAY - MONDAY

Romantic Drama Blends  
Musical Theme and Love

Hitting a new high in the blending of a romantic story with a background of music, John Cromwell's production of "Night Song" for RKO Radio co-stars Dana Andrews, Merle Oberon and Ethel Barrymore in one of the season's most enjoyable films.

When talented Dan Evans is blinded to an auto accident, he drops his unfinished concerto and turns to playing the piano in a small night club. Wealthy Kathy Mallory "discovers" him and becomes interested in his musical abilities, but he is too proud to accept favors.

From Dan's pal "Chick" Morgan, Kathy learns that his sight might be restored by an expensive operation, but there is little chance that he'll ever earn the money and he certainly wouldn't accept it from her. The unusual ruse that Kathy adopts to win Dan's friendship and her scheme to inspire him to complete the concerto, build up to an absorbing climax in this out-of-the-ordinary offering.

As Dan, Andrews, has the finest role of his career, and Miss Oberon has a profoundly sympathetic role as Kathy. Miss Barrymore as the girl's worldly-wise aunt, and Hoagy Carmichael as Chick, have prominent parts in the plot, with newest pianologue novelty, "Who Killer 'Er'" composed by himself, Fred Spielman and Janice Torre. The development of Dan's concerto, and its eventual performance by Arthur Rubinstein and the New York Philharmonic-Symphony Orchestra under Eugene Ormandy in Carnegie Hall, lends a brilliant musical basis to the picture. Leith Stevens composed the number, and John Cromwell directed the film from the screenplay by Frank Fen-

"From where I sit"  
... by Joe Marsh

# Is The Press "Free"?

Whenever I read about the controlled press they have in certain foreign countries—where truth is suppressed—I feel mighty proud of our free American press.

Of course that word "free" doesn't mean completely uncontrolled. The press has its own Association with its own code of ethics—and is usually mighty quick to warn any individual who oversteps the bounds of common decency or honesty.

It's the same in many other industries—like the folks who make and sell beer. They have their own standards—and protect them vigilantly. The Brewers call it a "Self Regulation" Program whereby retailers getting out of line are warned, and reported to the authorities for discipline if needed.

From where I sit, freedom is a great thing—but a responsibility, too. And in shouldering that responsibility, and keeping their own house in order, the Brewers are protecting your and my right to enjoy a moderate beverage like beer.

# Maiden Voyage... S. S. DIXIE

The steel industry and its allied fabrication plants provide jobs for more than 60,000 workers in the "Gulf South" area served by United Gas. This is another southern industry in which natural resources of the earth are put to use for the benefit of mankind.

The growing steel industry of the South combines our own native minerals with the natural resources of many other areas. But there would be no steel industry in the South today if those natural resources were left worthless in the ground.

There would be no natural gas industry, either—no convenient, low-cost fuel for your home or factory—if this important resource were left in the ground. Only after companies like United Gas gathered, processed and transported it to places where people could use it, did natural gas become of value to mankind. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families in the South.

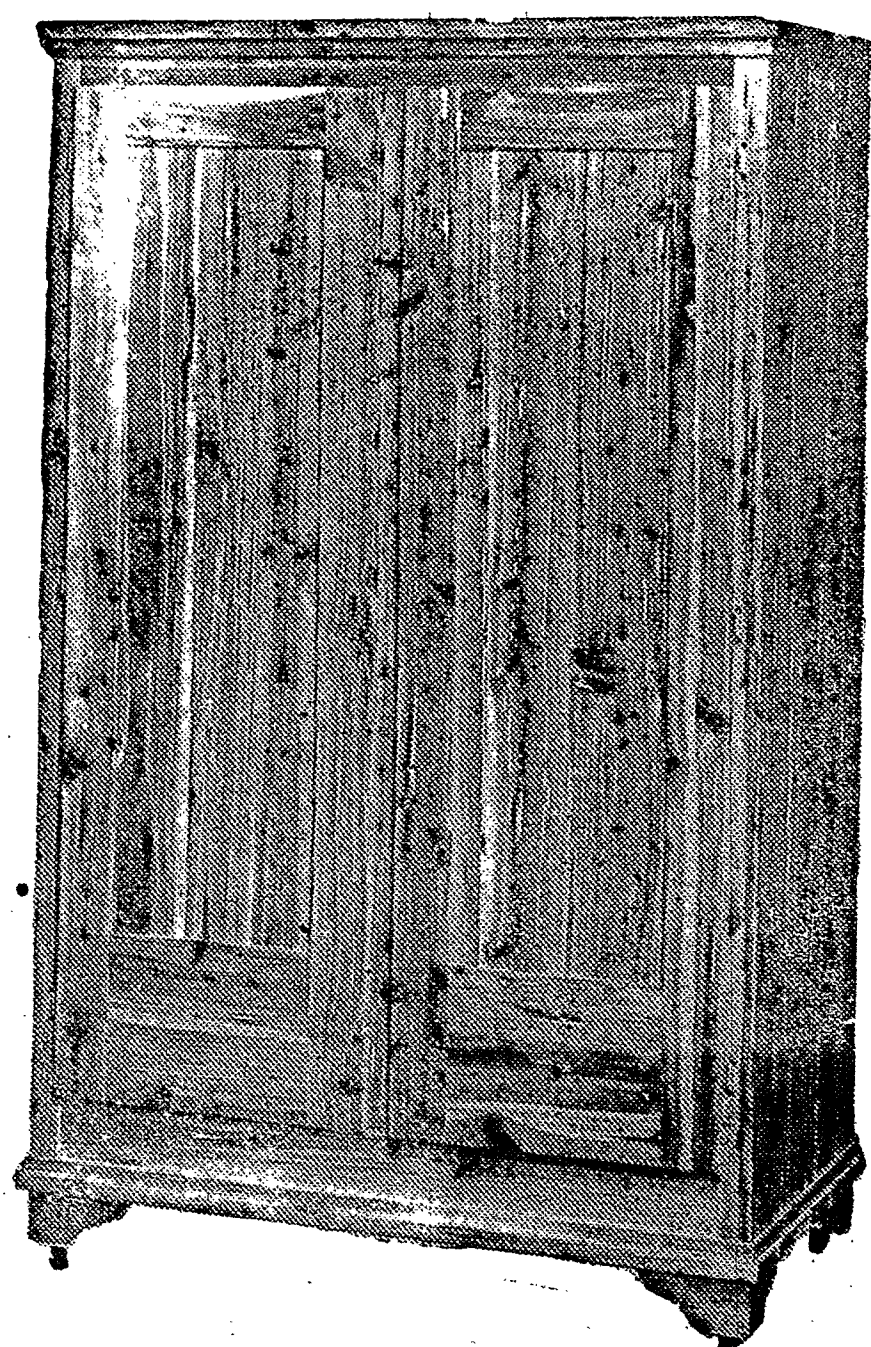

**UNITED GAS . . . .**

# STEEL INDUSTRY

Southern capital invested in steel fabrication plants has made thousands of jobs for southern workers, providing payrolls for our people, tax revenues for our government and income for local businesses in every section of the South.
